**PERMISSION FOR WATER SERVICE LANDLORD/TENANT AGREEMENT**

I, \_\_\_\_\_, am the current landlord/property owner for the residence located at \_\_\_\_\_ . I give \_\_\_\_\_ permission to have service put in their name, as they are the new tenant. I understand that we shall both be held responsible for any outstanding balances remaining after the residence is vacated. In the event of shutoff for non-payment, Mt. Zion will contact both the landlord and the tenant to arrange for payment.

This agreement shall cover outstanding balances for water service as well as any damage to any property located on the premises that belongs to Mt. Zion Water System. If outstanding balances are not paid within 30 days of final bill, no one will be able to reconnect the service until balance is paid and a lien could be placed on the property until debt is paid.

If for any reason the landlord/property owner decides to place the utilities in their name and charge the tenant for service with the rent, the entire responsibility would then be on the landlord/property owner.

**PLEASE INCLUDE A COPY OF THE LEASE AGREEMENT!**
